Lead Generation: Single Touch MQLs

Our Single Touch MQL service is designed to quickly capture the attention of potential leads through a single, impactful interaction.
This could be through a targeted ad, a compelling content download, or a webinar registration. It's a fast and efficient way to generate a high volume of Marketing Qualified Leads (MQLs).

Key Features:

Rapid Lead Generation:

Generates leads with campaigns tailored for instant interaction and engagement.

High-Impact, Single Interaction:

Makes a lasting impression with an impactful single interaction.

Real-Time Lead Capture:

Instantly captures lead information during interactions for swift follow-up.

Tech Directory Listing:

Features your business in our tech directory to increase visibility to a targeted audience.

Social Media Amplification:

Leverages our strong social media presence to amplify your campaign's reach and engage a wider audience.

Weekly Newsletter Promotion:

Features your campaign in our popular weekly newsletter, reaching industry professionals and potential leads.

Lead Generation: Single Touch MQLs

Key Benefits:

☑ Accelerates lead pipeline growth

☑ Maximizes reach with minimal effort

☑ Efficiently increases brand awareness

☑ Quickly identifies and captures potential leads

☑ Enhances online presence

☑ Sustained interest and engagement over time

Applying ABM and Intent Data:

☑ Enhance your Single Touch campaigns with our ABM tactics, where we tailor each interaction to resonate deeply with your key accounts.

☑ Coupled with Intent Data, we ensure that your single touch is timely and relevant, targeting leads who are actively seeking solutions in your domain.

Regulatory Compliance:
Fully GDPR, CASL, and CCPA compliant.

Lead Verification and Validation:
Rigorous process to ensure lead authenticity.

TechInformed will deploy the most effective qualification techniques and frameworks for your lead generation campaign to maximise conversion – be it traditional BANT or modern alternatives, such as CHAMP, ANUM, FAINT, MEDDIC and others.
